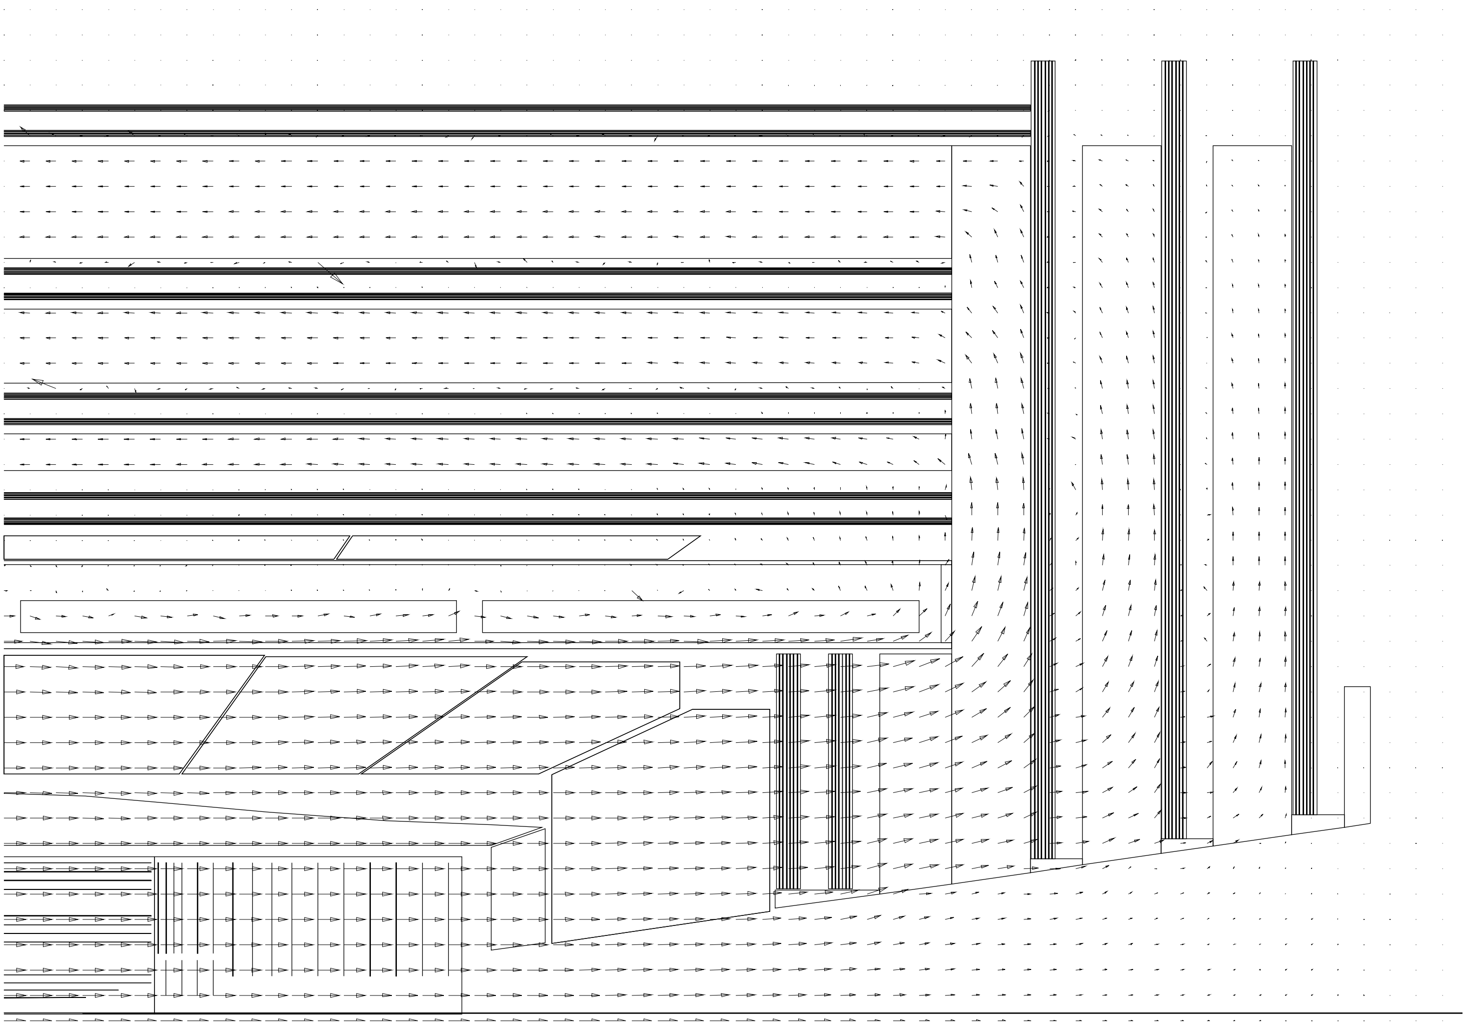
New Simple Muon Geometry



IMVERS = 904 or 906

MS 1–4: 2 x 4 layers: 10 mm gas / 1 mm Al
MF 0–4: 4 or 6 layers: 5 mm gas / 22 mm honeycomb

MF0 and MF1 form double first station
MF0 can be desabled by commenting out the titles

Other flags for muon matching:

KINE: IKINE = –74
PKINE(1) – number of ISAJET events

others: like for normal muon fit *(see CMSIM manual)*
